- LO2: Evaluate channel and campaign ROI, synthesise RACE/SOSTAC strategy models, and align recommendations with overarching marketing objectives.
- LO3: Lead the creation of an integrated online presence across web, email, social and emerging channels with human oversight.

Training Strategy

- Mechanism-led visual instruction using architecture, state, data-contract, formula, chart, photorealistic section imagery and evidence slides.
- Detailed click paths are taught through the Learner Guide and 15 self-contained lab folders, not the PPT.
- Learners use synthetic Excel data and inactive n8n workflows; the SocialPost HTTP node stays disabled until a trainer authorises one sandbox call.
